Index of Authors

Note. Entries marked with a section mark (§) refer to contributions to Symposia.
Pages in *Proceedings of the Biochemical Society* are distinguished by P.

ABDEL-TAWAB, G. A., BRODA, E. & KELLNER, G. The production of pyruvic acid, oxaloacetic acid and α-oxoglutaric acid from glucose by tissue in culture 619
ABRAHAM, E. P. *see* SWALLOW, D. L. 326
ADINOLFI, A. *see* RUFFO, A. 613
AHRENS, E. H., Jun. *see* INSULL, W., Jun. 27
AMOORE, J. E., BARTLEY, W. & VAN HEYNINGEN, R. Distribution of sodium and potassium within cattle lens 126
ANDERSON, J. D., ANDREWS, P. & HOUGH, L. The incorporation of ^{14}C into the sorbitol of plum leaves 9P
ANDREWS, P. *see* ANDERSON, J. D. 9P
§ARIGONI, D. Steric aspects of the biosynthesis of terpenes and steroids 39P
ASTILL, B. D., FASSETT, D. W. & ROUDABUSH, R. L. The metabolism of 2:4:5-trihydroxybutyrophenone in the rat and dog 451
AUDLEY, B. G., GOODWIN, T. W. & MCEVOY, D. Flavinogenesis in *Candida flareri*; the role of urea and purines 8P
AVI-DOR, Y. & GONDA, O. Studies on the adenosine triphosphate–phosphate exchange and the hydrolysis of adenosine triphosphate catalysed by a particulate fraction from the mosquito 8

BACH, S. J. & HIBBITT, K. G. Biochemical aspects of bovine ketosis 87
BAILEY, R. W. Transglucosidase activity of rumen strains of *Streptococcus bovis*. 2. Isolation and properties of dextransucrase 42
BAILEY, R. W. & CLARKE, R. T. J. A bacterial dextranase 49
BAILIE, M. J. & CHRISTIE, G. S. The acute toxic action of dimethylnitrosamine on liver cells 473
BALÁZS, R. The point of the aerobic inhibition of glycolytic activity associated with brain mitochondria 561
BALDWIN, B. C., ROBINSON, D. & WILLIAMS, R. T. Ornithuric acid formation in hens 35P
BANGHAM, A. D. & DAWSON, R. M. C. The relation between the activity of a lecithinase and the electrophoretic charge of the substrate 486
BANGHAM, A. D. *see also* DAWSON, R. M. C. 493
§BARKER, G. R. Stereochemical specificities of some enzymes of nucleotide metabolism 42P
BARKER, G. R., LLOYD, J. B., MONTAGUE, M. D. & WOOD, N. F. The actions of some enzymes on purine and its derivatives 9P
§BARLOW, R. B. Steric aspects of drug action 40P
BARTLEY, W. *see* AMOORE, J. E. 126
BATCHELOR, A. *see* GOLBERG, L. 20P
BATES, C. M. *see* GOLBERG, L. 20P
BELL, D. *see* SMELLIE, R. M. S. 17P

Index of Subjects

Note. Entries marked with a section mark (§) refer to contributions to Symposia. Pages in *Proceedings of the Biochemical Society* are distinguished by P.

Acetaldehyde, metabolism of, in rat-liver suspensions under anaerobic conditions (Lundquist, F., Fugmann, U., Kläning, E. & Rasmussen, H.) 409

Acetate, formation of, from pyruvate by *Lactobacillus brevis* (Walker, J. R. L.) 188

[1-^{14}C]Acetate, incorporation of, into polyacetylenes by a basidiomycete (Bu'Lock, J. D. & Gregory, H.) 322

Acetate, synthesis of cell constituents from, by *Escherichia coli* (Kornberg, H. L., Phizackerley, P. J. R. & Sadler, J. R.) 32P

α-Acetyl-γ-*sec.*-butyltetramic acid, identity of, with tenuazonic acid (Stickings, C. E.) 332

Acetylcholine, bound, distribution of, in rat and pigeon brain (Bellamy, D.) 165

Acetylcholine-containing particles from brain, isolation and characterization of (Whittaker, V. P.) 694

Acetylcholinesterase in goldfish muscles (Lundin, S. J.) 210

Aconitase, inhibition of, by glyoxylate plus oxaloacetate (Ruffo, A., Romano, M. & Adinolfi, A.) 613

Aconitase, soluble, inhibition of, by fluorocitric acid (Peters, R. A.) 11P

Actomyosin, effects of adenosine triphosphate on mechanical properties of surface films of (Cheesman, D. F., Keeler, M. M. & Sten-Knudsen, O.) 357

Adenine, exchange of, in ribonucleic acid of macrophages (Watts, J. W. & Harris, H.) 147

Adenosine deaminase—a constitutive enzyme of developing White Leghorn chick embryo (Palmer, D. E. & Solomon, J. B.) 28P

Adenosine triphosphate, effects of, on mechanical properties of surface films of L-myosin and actomysin (Cheesman, D. F., Keeler, M. M. & Sten-Knudsen, O.) 357

Adenosine triphosphate, studies on hydrolysis of, catalysed by respiratory particles from the mosquito (Avi-Dor, Y. & Gondy, O.) 8

Aedes aegypti see Mosquito

Aerobacter aerogenes, 1-(*o*-carboxyphenylamino)-1-deoxyribulose formed by mutant tryptophan-requiring strains of (Doy, C. H. & Gibson, F.) 586

Albumin, serum, human, intermolecular and intramolecular reactions of, after X-irradiation in aqueous solution (Rosen, D.) 597

Alkaloids of hemlock (Fairbairn, J. W. & Challen, S. B.) 556

Alternaria tenuis, metabolites of (Stickings, C. E.) 332

Amino acid activation, relation between cell-sap ribonucleic acid coupling and (Gutfreund, H.) 30P

Amino acid, incorporation of, into cell-free preparations of normal and neoplastic lymphatic tissues of the rat (Rendi, R. & Campbell, P. N.) 34

Amino acid, incorporation of, into protein of microsome and mitochondria preparations of rat liver and liver tumour (Greengard, O. & Campbell, P. N.) 305

Amino acid, incorporation of, into proteins of isolated rat-liver mitochondria (Reis, P. J., Coote, J. L. & Work, T. S.) 24P

Amino acids and other ninhydrin-reacting substances, two-way separation of, by high-voltage electrophoresis followed by paper chromatography (Efron, M. L.) 691

Amino acids, incorporation of, into cell-wall mucopeptide of staphylococci and effect of antibiotics on the process (Mandelstam, J. & Rogers, H. J.) 654

Amino acids, incorporation of, into proteins of isolated microsome fraction from duck liver (Campbell, P. N. & Kernot, B. A.) 6P

Amino acids, interaction between pyridoxal phosphate and (King, H. K. & Lucas, N.) 18P

[^{14}C]Amino acids, location of ^{14}C in protein from isolated rat diaphragm incubated with, and with $^{14}CO_2$ (Manchester, K. L. & Young, F. G.) 136

Amino acids, reactions of, with soluble ribonucleic acid from guinea-pig mammary cells (Fraser, M. J., Shimizu, H. & Gutfreund, H.) 141

Amino acids, role of cytoplasmic ribonucleic acid in incorporation of, into microsomal proteins (Rendi, R. & Campbell, P. N.) 435

Amino sugars, separation of, by paper chromatography, electrophoresis and ion-exchange (Crumpton, M. J.) 479

δ-Aminolaevulic acid, synthesis of, by *Rhodopseudomonas spheroides* (Lascelles, J.) 508

ε-(Aminosuccinyl)lysine, preparation of, from bacitracin A (Swallow, D. L. & Abraham, E. P.) 326

Amphipathic molecules, activation of surface films of lecithin by (Dawson, R. M. C. & Bangham, A. D.) 493

Anserinase activity, estimation of, by low-temperature ninhydrin reaction (Jones, N. R.) 407

Arginine, detection of, in rat liver (Rosenberg, H.) 582

Aryl sulphamate synthesis (Roy, A. B.) 19P

Ascites tumour cells, intramolecular location of deoxyribonucleotides incorporated into deoxyribonucleic acid by extracts of (Gray, E. D. & Smellie, R. M. S.) 16P

Ascites tumour cells, net synthesis of deoxyribonucleic acid by extracts of (Smellie, R. M. S., Keir, H. M., Gray, E. D., Bell, D., Richards, J. & Davidson, J. N.) 17P

Ascites tumour, Ehrlich, studies on the conversion of glucose into lactic acid in (Dewey, D. L. & Green, F. O.) 160

Aspergillus niger, metabolism of 2-methoxynaphthalene by (Byrde, R. J. W., Downing, D. F. & Woodcock, D.) 344

Autoantibodies, demonstration of, reacting with human-liver lactic dehydrogenase (Burton, P., Kerr, L. M. H. & Frazer, S. C.) 12P

Bacillus cereus, purification and properties of a proteinase from (Salter, D. N.) 23P

Bacitracin A, amide and carboxyl groups of (Swallow, D. L. & Abraham, E. P.) 326

Bacteriochlorophyll, adaptation to form, in *Rhodopseudomonas spheroides* (Lascelles, J.) 508

Banana, oligosaccharide synthesis in, and its relationship to the transferase activity of invertase (Henderson, R. W., Morton, R. K. & Rawlinson, W. A.) 340

Barium chloranilate, use of, in the determination of enzymically liberated sulphate (Lloyd, A. G.) 133

Basidiomycete, biosynthesis of polyacetylenes by a (Bu'Lock, J. D. & Gregory, H.) 322

Bean, estimation of griseofulvin relatives in tissues of (Crowdy, S. H., Green, A. P., Grove, J. F., McCloskey, P. & Morrison, A.) 230

Blood thiols, chromatographic analysis of (Smith, M. J. & Rodnight, R.) 1P

Brain, isolation and characterization of acetylcholine-containing particles from (Whittaker, V. P.) 694

Brain mitochondria, point of aerobic inhibition of glycolysis associated with (Balázs, R.) 561

Brain, rat and pigeon, distribution of bound acetylcholine and choline acetylase in (Bellamy, D.) 165
Brain, separation by countercurrent distribution of dinitrophenylated and methylated phospholipids from (Collins, F. D.) 281
Brain, sheep, complex phospholipid from (Collins, F. D.) 532
Brain, sheep, enzyme systems of (Gallagher, C. H. & Buttery, S. H.) 575
Butter, phospholipid fractions from (Billimoria, J. D. & Curtis, R. G.) 29P

'Cage layer fatigue' in hens, observations on (Bell, D. J., Siller, W. G. & Campbell, J. G.) 32P
Candida flareri, flavinogenesis in, role of urea and purines in (Audley, B. G., Goodwin, T. W. & McEvoy, D.) 8P
Carbohydrate, conversion of fat into, in the obese human (Pawan, G. L. S.) 20P
Carbon dioxide, radioactive ($^{14}CO_2$), location of ^{14}C in protein from isolated rat diaphragm incubated with [^{14}C]amino acids and (Manchester, K. L. & Young, F. G.) 136
Carbon dioxide, radioactive ($^{14}CO_2$), photosynthetic uptake of, by subcellular components of spinach leaves (Moses, V., Holm-Hansen, O., Pon, N. G., Nishida, K. & Calvin, M.) 19P
Carbon dioxide, utilization of, by cell-free extracts of *Pseudomonas oxalaticus* (OX 1) (Quayle, J. R. & Keech, D. B.) 631
Carbon dioxide, utilization of, by *Pseudomonas oxalaticus* (OX 1) (Quayle, J. R. & Keech, D. B.) 623
Carbon isotope (^{14}C), incorporation of, into diaminopimelic acid by *Escherichia coli* (Meadow, P. & Work, E.) 396
Carbon isotope (^{14}C), incorporation of, into sorbitol of plum leaves (Anderson, J. D., Andrews, P. & Hough, L.) 9P
Carbon isotope (^{14}C), location of, in protein from isolated rat diaphragm incubated with [^{14}C]amino acids and with $^{14}CO_2$ (Manchester, K. L. & Young, F. G.) 136
Carbon tetrachloride, vitamin B_{12} protection in experimental liver injury to the rat by (Kasbekar, D. K., Lavate, W. V., Rege, D. V. & Sreenivasan, A.) 384
Carboxydismutase, presence of, in *Pseudomonas oxalaticus* (OX 1) (Quayle, J. R. & Keech, D. B.) 631
1-(*o*-Carboxyphenylamino)-1-deoxyribulose formed by mutant strains of *Aerobacter aerogenes* and *Escherichia coli* blocked in the biosynthesis of tryptophan (Doy, C. H. & Gibson, F.) 586
Carbutamide, effect of, on growth and transaminases of *Escherichia coli* (Hicks, R. M.) 22P
Cartilage, cation-binding properties of (Dunstone, J. R.) 465
Cartilage, nasal, bovine, components of (Rotstein, J. & Schubert, M.) 29P
Cartilage, ossifying, oxidative enzyme systems in (Whitehead, R. G. & Weidmann, S. M.) 667
Cation-binding properties of cartilage (Dunstone, J. R.) 465
Cell wall, bacterial, incorporation of [^{14}C]diaminopimelic acid and [^{14}C]lysine into (Meadow, P. & Work, E.) 400
Cell wall, incorporation of amino acids into mucopeptide of (Mandelstam, J. & Rogers, H. J.) 654
Cell wall, products of partial acid hydrolysis of mucopeptide from (Perkins, H. R. & Rogers, H. J.) 647
Cellulolytic enzymes, rumen, substrate specificity of (Festenstein, G. N.) 75
Cerebrum, metabolism of, in normal sheep (Setchell, B. P.) 265
Chicks, normal and rachitic, kinetics of plasma phosphatase of (Motzok, I.) 169
Chlorpromazine, effect of, on the respiratory chain (Dawkins, M. J. R., Judah, J. D. & Rees, K. R.) 204
Cholesterol, intestinal absorption of, in the guinea pig (Glover, J., Green, C. & Stainer, D. W.) 82
Choline acetylase, distribution of, in rat and pigeon brain (Bellamy, D.) 165
Chymotrypsin, phosphorylated, reactivation of (Green, A. L. & Nicholls, J. D.) 70
Citric acid cycle in *Mycobacterium butyricum* (Edson, N. L., Hunter, G. J. E., Kulka, R. G. & Wright, D. E.) 249
Cobalamin and methionine synthesis in *Escherichia coli* (Guest, J. R.) 5P
Conium maculatum L. *see* Hemlock
Connective-tissue cell, initiation of deoxyribonucleic acid synthesis in (Harris, H.) 54
Copper, content of, in tissues from normal and swayback lambs (Howell, J. McC. & Davison, A. N.) 365
Cornea, X-irradiated, enzymic studies of, with special reference to glutathione reductase (Kuhlman, R. E. & Resnik, R. A.) 261
Cyanocobalamin, protein-bound, activity of, for microorganisms (Gregory, M. E. & Holdsworth, E. S.) 549
Cytochrome *b*, oxidation–reduction potential of, in heart-muscle preparation (Colpa-Boonstra, J. & Holton, F. A.) 4P
Cytochrome oxidase, activity of, in tissues from normal and swayback lambs (Howell, J. McC. & Davison, A. N.) 365
Cytochrome oxidase, effect of chlorpromazine on (Dawkins, M. J. R., Judah, J. D. & Rees, K. R.) 204

DDT *see* 1:1:1-Trichloro-2:2-di-(*p*-chlorophenyl)ethane
7-Dehydrocholesterol, absorption of, in rat (Glover, J. & Stainer, D. W.) 79
7-Dehydrocholesterol, intestinal absorption of, in the rat (Glover, J., Green, C. & Stainer, D. W.) 82
Deoxycorticosterone, investigation of products of metabolism after incubation of, with liver homogenate (Taylor, W.) 442
Deoxyribonucleic acid, initiation of, synthesis in the connective-tissue cell, with some observations on the function of the nucleolus (Harris, H.) 54
Deoxyribonucleic acid, intramolecular location of deoxyribonucleotides incorporated into, by extracts of ascites tumour cells (Gray, E. D. & Smellie, R. M. S.) 16P
Deoxyribonucleic acid, net synthesis of, by extracts of ascites tumour cells (Smellie, R. M. S., Keir, H. M., Gray, E. D., Bell, D., Richards, J. & Davidson, J. N.) 17P
Deoxyribonucleoside triphosphates, enzymic formation of (Keir, H. M.) 17P
Dextranase, activity of, in strains of *Lactobacillus bifidus* (Bailey, R. W. & Clarke, R. T. J.) 49
Dextransucrase, isolation and properties of (Bailey, R. W.) 42
[^{14}C]Diaminopimelic acid, incorporation of, by *Escherichia coli* (Meadow, P. & Work, E.) 400
Diaminopimelic acid, incorporation of ^{14}C from organic precursors into, of a lysine-requiring mutant (Meadow, P. & Work, E.) 396
Diaphorase, physiological role of (Massey, V.) 7P
Diaphragm, rat, isolated, incubated with [^{14}C]amino acids and with $^{14}CO_2$, location of ^{14}C in protein from (Manchester, K. L. & Young, F. G.) 136
20α:21-Dihydroxypregn-4-en-3-one and its 20β-epimer as metabolites of deoxycorticosterone (Taylor, W.) 442
6β:21-Dihydroxypregn-4-ene-3:20-dione as a metabolite of deoxycorticosterone (Taylor, W.) 442
3α:21-Dihydroxy-5α-pregnan-20-one and its 3β-epimer as metabolites of deoxycorticosterone (Taylor, W.) 442
3α:21-Dihydroxy-5β-pregnan-20-one as a metabolite of deoxycorticosterone (Taylor, W.) 442
1:4-Dimethanesulphonyloxybutane (myleran), studies on the metabolism of (Roberts, J. J. & Warwick, G. P.) 3P
2-Dimethyl-6-hydroxypurine, presence of, in ribonucleic acids (Smith, J. D. & Dunn, D. B.) 294

Dimethylnitrosamine, acute toxic action of, on liver cells (Bailie, M. J. & Christie, G. S.) 473
§Drug action, steric aspects of (Barlow, R. B.) 40P

Ehrlich ascites tumour, studies on the conversion of glucose into lactic acid in (Dewey, D. L. & Green, F. O.) 160
Electrolytes, tissue, and haemorrhage (Widdowson, E. M. & Southgate, D. A. T.) 200
§Enzymes, hydrolytic, steric factors in action of (Webb, E. C.) 41P
§Enzymes, oxidation–reduction, steric factors in action of (Slater, E. C.) 41P
Enzymes, proteolytic, degradation of the hyaluronic acid complex of synovial fluid by (Ogston, A. G. & Sherman, T. F.) 301
Erythrocyte chemistry accompanying temporary pectoral muscle lesions in young fowls, changes in (Bell, D. J. & Siller, W. G.) 27P
Erythrocytes, human, effect of vitamin B_{12} on reduction of glutathione disulphide in (Jocelyn, P. C.) 11P
Erythrocytes, rat, biosynthesis of glutathione by (Kasbekar, D. K. & Sreenivasan, A.) 389
Escherichia coli, adaptation of glucose 6-phosphate dehydrogenase to growth of, in complex media (Scott, D. B. McNair & Chu, E.) 426
Escherichia coli, 1-(*o*-carboxyphenylamino)-1-deoxyribulose formed by mutant tryptophan-requiring strains of (Doy, C. H. & Gibson, F.) 586
Escherichia coli, effect of isoniazid, propamidine, pentamidine and carbutamide on growth and transaminases of (Hicks, R. M.) 22P
Escherichia coli, incorporation of ^{14}C from organic precursors into diaminopimelic acid by lysine-requiring mutant of (Meadow, P. & Work, E.) 396
Escherichia coli, relationship between cobalamin and methionine synthesis in (Guest, J. R.) 5P
Escherichia coli, ribonucleoprotein component of (Bowen, T. J., Dagley, S. & Sykes, J.) 419
Escherichia coli, synthesis of cell constituents from acetate by (Kornberg, H. L., Phizackerley, P. J. R. & Sadler, J. R.) 32P
Ethanol, effect of, on rat-liver ribonucleoprotein exposed to cold trichloroacetic acid (Venkataraman, P. R. & Lowe, C. U.) 430
Ethylenediaminetetra-acetic acid, degradation of the hyaluronic acid complex of synovial fluid by (Ogston, A. G. & Sherman, T. F.) 301
Eucalyptus, occurrence of hydroxystilbenes in (Hathway, D. E. & Seakins, J. W. T.) 37P
Eucalyptus wandoo, hydroxystilbenes of (Hathway, D. E. & Seakins, J. W. T.) 369

Fat, component fatty acids of, from *Penicillium spinulosum* (Shimi, I. R., Singh, J. & Walker, T. K.) 184
Fat, conversion of, into carbohydrate in the obese human (Pawan, G. L. S.) 20P
Fatty acids, component, of *Penicillium spinulosum* fat (Shimi, I. R., Singh, J. & Walker, T. K.) 184
Fatty acids of human milk from mothers on diets taken *ad libitum* (Insull, W., Jun. & Ahrens, E. H., Jun.) 27
Fatty alcohol, isolation of, from the phospholipids of sheep brain (Collins, F. D.) 532
Ficin, mechanism of reactions catalysed by (Hammond, B. R. & Gutfreund, H.) 349
Fluorocitric acid, inhibition of soluble aconitase by (Peters, R. A.) 11P
Formaldehyde, reaction of tetrahydropteroylglutamic acid and related hydropteridines with (Blakley, R. L.) 707
Formate, utilization of, by cell-free extracts of *Pseudomonas oxalaticus* (OX 1) (Quayle, J. R. & Keech, D. B.) 631
Formate, utilization of, by *Pseudomonas oxalaticus* (OX 1) (Quayle, J. R. & Keech, D. B.) 623
Formic dehydrogenase, presence of, in *Pseudomonas oxalaticus* (OX 1) (Quayle, J. R. & Keech, D. B.) 631
Fructose diphosphate, effect of, on incorporation of amino acids into microsomes (Rendi, R. & Campbell, P. N.) 34
6^G-Fructosylsucrose in banana (Henderson, R. W., Morton, R. K. & Rawlinson, W. A.) 340
Fungicides, activity of griseofulvin relatives as (Crowdy, S. H., Grove, J. F. & McCloskey, P.) 241

Glucosaccharo-1→4-lactone, inhibition of β-glucuronidase by (Boyland, E., Davies, J. H. & Williams, K.) 28P
[^{14}C]Glucose, incorporation of, by *Escherichia coli* (Meadow, P. & Work, E.) 400
Glucose 6-phosphate dehydrogenase, adaptation of, to growth of *Escherichia coli* in complex media (Scott, D. B. McNair & Chu, E.) 426
Glucose, production of pyruvic acid, oxaloacetic acid and α-oxoglutaric acid from, by tissue in culture (Abdel-Tawab, G. A., Broda, E. & Kellner, G.) 619
Glucose, studies on the conversion of, into lactic acid in the Ehrlich ascites tumour (Dewey, D. L. & Green, F. O.) 160
β-Glucuronidase, inhibition of, by glucosaccharo-1→4-lactone (Boyland, E., Davies, J. H. & Williams, K.) 28P
γ-Glutamyl peptides, metabolism of, in subcellular fractions of rabbit liver (Cliffe, E. E. & Waley, S. G.) 12P
Glutathione, biosynthesis of, by rat erythrocytes (Kasbekar, D. K. & Sreenivasan, A.) 389
Glutathione disulphide, effect of vitamin B_{12} on reduction of, in human erythrocytes (Jocelyn, P. C.) 11P
Glutathione reductase, enzymic studies of X-irradiated cornea and lens with special reference to (Kuhlman, R. E. & Resnik, R. A.) 261
Glycerol, metabolism of, in *Mycobacterium butyricum* (Edson, N. L., Hunter, G. J. E., Kulka, R. G. & Wright, D. E.) 249
Glycogens isolated from livers of foetal animals, molecular structure of (Warren, F. L. & Whittaker, M.) 288
Glycolysis associated with brain mitochondria, point of aerobic inhibition of (Balázs, R.) 561
Glycolysis in pea-seed extracts, aerobic inhibition of, and its relationship to the Pasteur effect (Hatch, M. D. & Turner, J. F.) 524
Glycolysis in rat retina, effect of an inherited retinal degeneration on development of (Graymore, C. N., Tansley, K. & Kerly, M.) 459
Glyoxylate cycle, assay methods for key enzymes of (Dixon, G. H. & Kornberg, H. L.) 3P
Glyoxylate cycle enzymes, influence of growth substrates on levels of, in *Pseudomonas ovalis* (Kornberg, H. L. & Lund, P.) 33P
Glyoxylate plus oxaloacetate as inhibitor of aconitase (Ruffo, A., Romano, M. & Adinolfi, A.) 613
Goat, glycogen from foetus of (Warren, F. L. & Whittaker, M.) 288
Goldfish muscles, acetylcholinesterase in (Lundin, S. J.) 210
Griseofulvin relatives in plant tissue, estimation of (Crowdy, S. H., Green, A. P., Grove, J. F., McCloskey, P. & Morrison, A.) 230
Griseofulvin relatives, systemic fungicidal activity and chemical structure in (Crowdy, S. H., Grove, J. F. & McCloskey, P.) 241
Growth hormone, purification of, from pig pituitary gland (Ottaway, J. H.) 22P
Guanidinoacetic acid and other substituted guanidines, occurrence of, in mammalian liver (Rosenberg, H.) 582
γ-Guanidinobutyric acid, detection of, in rat liver (Rosenberg, H.) 582
β-Guanidinopropionic acid, detection of, in rat liver (Rosenberg, H.) 582

Haemorrhage and tissue electrolytes (Widdowson, E. M. & Southgate, D. A. T.) 200
Haptoglobins, human, estimation and purification of (Connell, G. E. & Smithies, O.) 115
Hartnup disease, metabolic abnormality of (Milne, M. D., Crawford, M. A., Girão, C. B. & Loughridge, L.) 30P
Heart, oxidation–reduction potential of cytochrome *b* in preparation from muscle of (Colpa-Boonstra, J. & Holton, F. A.) 4P
Heart, rate of reduction of endogenous ubiquinone in preparation from muscle of (Pumphrey, A. M. & Redfearn, E. R.) 2P
Hemlock (*Conium maculatum* L.), alkaloids of (Fairbairn, J. W. & Challen, S. B.) 556
Hevea brasiliensis latex, ribonucleoprotein component of (McMullen, A. I.) 545
cyclo[^{14}C]Hexane and its derivatives, metabolism of (Elliott, T. H., Parke, D. V. & Williams, R. T.) 193
Hexoestrol, tritium-labelled, selective accumulation of, by reproductive organs of immature female goats and sheep (Glascock, R. F. & Hoekstra, W. G.) 673
Histones, thymus, chromatography of (Phillips, D. M. P. & Johns, E. W.) 538
Hyaluronic acid complex of synovial fluid, degradation of, by proteolytic enzymes and by ethylenediaminetetra-acetic acid (Ogston, A. G. & Sherman, T. F.) 301
§Hydrolytic enzymes, steric factors in action of (Webb, E. C.) 41P
Hydroxamic acids, reactivation of phosphorylated chymotrypsin by (Green, A. L. & Nicholls, J. D.) 70
6-Hydroxy-2-methylaminopurine, presence of, in ribonucleic acids (Smith, J. D. & Dunn, D. B.) 294
21-Hydroxy-5α-pregnane-3:20-dione and its 5β-isomer as metabolites of deoxycorticosterone (Taylor, W.) 442
Hydroxypyruvate in animal tissues, metabolism of (Dickens, F. & Williamson, D. H.) 496
Hydroxystilbenes, occurrence of, in *Eucalyptus* (Hathway, D. E. & Seakins, J. W. T.) 37P
Hydroxystilbenes of *Eucalyptus wandoo* (Hathway, D. E. & Seakins, J. W. T.) 369
Hypoglycaemic coma, irreversible, in sheep after injections of insulin (Setchell, B. P.) 275

*myo*Inositol 2-phosphate, a constituent of liver monophosphoinositide (Hawthorne, J. N. & Hübscher, G.) 10P
Insulin, irreversible hypoglycaemic coma in sheep after injections of (Setchell, B. P.) 275
Intestine, sterols in cell fractions from mucosa of, in fasted rats and rats dosed with 7-dehydrocholesterol (Glover, J. & Stainer, D. W.) 79
Intestine, uptake of sterols by organelles in mucosa of (Glover, J., Green, C. & Stainer, D. W.) 82
Invertase, oligosaccharide synthesis in the banana and its relationship to the transferase activity of (Henderson, R. W., Morton, R. K. & Rawlinson, W. A.) 340
Iodoacetate, hypersensitivity of the visual cell to (Graymore, C. N.) 23P
o-Iodophenols, reversible photosensitive changes on alkalinification of solutions of, in aqueous organic solvents (Tata, J. R.) 214
Ion transport and metabolism in slices of guinea-pig seminal-vesicle mucosa (Whittam, R. & Breuer, H. J.) 638
Iron, stimulation of liver acid phosphatase activity after the parenteral injection of excessive doses of (Golberg, L., Martin, L. E., Bates, C. M. & Batchelor, A.) 20P
Isoniazid, effect of, on growth and transaminases of *Escherichia coli* (Hicks, R. M.) 22P

Ketone bodies, renal threshold for (Stewart, H. B. & Young, F. G.) 60
Ketonuria, stimulation of, by a substance from animal tissues (Stewart, H. B. & Young, F. G.) 60
Ketosis, bovine, biochemical aspects of (Bach, S. J. & Hibbitt, K. G.) 87
Kidney, human, normal and diseased, unsaponifiable fraction of lipid from (Mervyn, L. & Morton, R. A.) 106
Kidney, metabolism of thyroid-gland hormone by (Galton, V. A. & Pitt-Rivers, R.) 314
Kidney, sheep, enzyme systems of (Gallagher, C. H. & Buttery, S. H.) 575

Lactic acid, studies on the conversion of glucose into, in the Ehrlich ascites tumour (Dewey, D. L. & Green, F. O.) 160
Lactic dehydrogenase, human-liver, demonstration of auto-antibodies reacting with (Burton, P., Kerr, L. M. H. & Frazer, S. C.) 12P
Lactobacillus bifidus, dextranase of (Bailey, R. W. & Clarke R. T. J.) 49
Lactobacillus brevis, pyruvate metabolism in (Walker, J. R. L.) 188
Latex (*Hevea brasiliensis*), ribonucleoprotein component of (McMullen, A. I.) 545
Lathosterol, formation of, from 7-dehydrocholesterol in rat intestinal mucosa (Glover, J. & Stainer, D. W.) 79
Lecithin, activation of surface films of, by amphipathic molecules (Dawson, R. M. C. & Bangham, A. D.) 493
Lecithinase, relation between activity of, and the electrophoretic charge of the substrate (Bangham, A. D. & Dawson, R. M. C.) 486
Lens, cattle, distribution of sodium and potassium within (Amoore, J. E., Bartley, W. & van Heyningen, R.) 126
Lens, X-irradiated, enzymic studies of, with special reference to glutathione reductase (Kuhlman, R. E. & Resnik, R. A.) 261
Leucine, incorporation of, into ribonucleic acid from liver tumour (Greengard, O. & Campbell, P. N.) 305
Lipid, unsaponifiable fraction of, from normal and diseased human kidney (Mervyn, L. & Morton, R. A.) 106
Lipophosphoprotein complex in hen plasma associated with yolk production (McIndoe, W. M.) 153
Liver cells, acute toxic action of dimethylnitrosamine on (Bailie, M. J. & Christie, G. S.) 473
Liver, duck, incorporation of amino acids into proteins of isolated microsome fraction from (Campbell, P. N. & Kernot, B. A.) 6P
Liver, foetal, molecular structure of glycogens isolated from (Warren, F. L. & Whittaker, M.) 288
Liver homogenate, investigation of products of metabolism after incubation of deoxycorticosterone with (Taylor, W.) 442
Liver, human, lactic dehydrogenase of, demonstration of autoantibodies reacting with (Burton, P., Kerr, L. M. H. & Frazer, S. C.) 12P
Liver, *myo*inositol 2-phosphate in monophosphoinositide of (Hawthorne, J. N. & Hübscher, G.) 10P
Liver, mammalian, occurrence of guanidinoacetic acid and other substituted guanidines in (Rosenberg, H.) 582
Liver, normal and carcinomatous, incorporation of amino acid into protein of microsome and mitochondria preparations from (Greengard, O. & Campbell, P. N.) 305
Liver, ox, isolation of phosphatidic acid from (Hübscher, G. & Clark, B.) 7P
Liver, rabbit, metabolism of γ-glutamyl peptides in subcellular fractions of (Cliffe, E. E. & Waley, S. G.) 12P
Liver, rat, anaerobic metabolism of acetaldehyde in suspensions of (Lundquist, F., Fugmann, U., Kläning, E. & Rasmussen, H.) 409
Liver, rat, effects of salicylate on mitochondria from (Jeffrey, S. W. & Smith, M. J. H.) 462
Liver, rat, vitamin B_{12} protection in experimental injury to, by carbon tetrachloride (Kasbekar, D. K., Lavate, W. V., Rege, D. V. & Sreenivasan, A.) 384

Liver, separation by countercurrent distribution of dinitrophenylated and methylated phospholipids from (Collins, F. D.) 281
Liver, sheep, enzyme systems of (Gallagher, C. H. & Buttery, S. H.) 575
Liver, unsaponifiable constituents of, ubiquinone and substance SC in various species (Cunningham, N. F. & Morton, R. A.) 92
Lymphatic tissues, rat, normal and neoplastic, incorporation of amino acid into cell-free preparations of (Rendi, R. & Campbell, P. N.) 34
[^{14}C]Lysine, incorporation of, by *Escherichia coli* (Meadow, P. & Work, E.) 400
Lysine, incorporation of, into ribonucleic acid from liver tumour (Greengard, O. & Campbell, P. N.) 305

Macrophages, ribonucleic acid turnover in (Watts, J. W. & Harris, H.) 147
Mammary gland, guinea-pig, properties of mitochondria from (Jones, E. A. & Gutfreund, H.) 31P
Mammary gland, guinea-pig, reactions of amino acids with soluble ribonucleic acid from cells of (Fraser, M. J., Shimizu, H. & Gutfreund, H.) 141
Methionine, relationship between cobalamin and synthesis of, in *Escherichia coli* (Guest, J. R.) 5P
2-Methoxynaphthalene, metabolism of, by *Aspergillus niger* (Byrde, R. J. W., Downing, D. F. & Woodcock, D.) 344
1-Methylguanine, presence of, in ribonucleic acids (Smith, J. D. & Dunn, D. B.) 294
Mevalonic acid, formation of 'terpenoid' acids from, in liver enzyme preparations and their relation to sterol biosynthesis (Popják, G., Horning, M., Bucher, N. L. R. & Cornforth, R. H.) 34P
Mevalonic kinase in liver (Levy, H. R. & Popják, G.) 35P
Michaelis constant for alkaline phosphatases, factors influencing (Motzok, I. & Branion, H. D.) 177
Micrococcus lysodeikticus, products of partial acid hydrolysis of mucopeptide from cell walls of (Perkins, H. R. & Rogers, H. J.) 647
Micrococcus lysodeikticus, succinyl-group translocation through the plasma membrane of (Mitchell, P. & Moyle, J.) 21P
Microsome fraction, duck-liver, isolated, incorporation of amino acids into proteins of (Campbell, P. N. & Kernot, B. A.) 6P
Microsomes, incorporation of amino acid into protein of preparations of, from liver and liver tumour (Greengard, O. & Campbell, P. N.) 305
Microsomes, role of cytoplasmic ribonucleic acid in incorporation of amino acids into proteins of (Rendi, R. & Campbell, P. N.) 435
Micro-tests for sugars (Clarke, E. G. C.) 13P
Milk, human, fatty acids of, from mothers on diets taken *ad libitum* (Insull, W., Jun. & Ahrens, E. H., Jun.) 27
Mitochondria, brain, point of aerobic inhibition of glycolysis associated with (Balázs, R.) 561
Mitochondria, incorporation of amino acid into protein of preparations of, from liver and liver tumour (Greengard, O. & Campbell, P. N.) 305
Mitochondria, mammary gland, guinea-pig, properties of (Jones, E. A. & Gutfreund, H.) 31P
Mitochondria, rat-liver, effects of salicylate on (Jeffrey, S. W. & Smith, M. J. H.) 462
Mitochondria, rat-liver, isolated, incorporation of amino acid into proteins of (Reis, P. J., Coote, J. L. & Work, T. S.) 24P
Monoiodoacetate, effect of, on aerobic metabolism of ox retina *in vitro* (Hopkinson, L. & Kerly, M.) 22
Monophosphoinositide, liver, *myo*inositol 2-phosphate a constituent of (Hawthorne, J. N. & Hübscher, G.) 10P
Mosquito, studies on the adenosine triphosphate–phosphate exchange and the hydrolysis of adenosine triphosphate catalysed by a particulate fraction from (Avi-Dor, Y. & Gonda, O.) 8
Mucin, cervical, bovine, physical and chemical properties of mucoids from (Gibbons, R. A.) 27P
Mucoids from bovine cervical mucin, physical and chemical properties of (Gibbons, R. A.) 27P
Mucopeptide from cell walls of *Micrococcus lysodeikticus*, products of partial acid hydrolysis of (Perkins, H. R. & Rogers, H. J.) 647
Muscle, goldfish, acetylcholinesterase in (Lundin, S. J.) 210
Muscle, heart, oxidation–reduction potential of cytochrome *b* in preparation from (Colpa-Boonstra, J. & Holton, F. A.) 4P
Muscle, heart, rate of reduction of endogenous ubiquinone in preparation from (Pumphrey, A. M. & Redfearn, E. R.) 2P
Muscle, pectoral, changes in erythrocyte chemistry accompanying temporary lesions in, in young fowls (Bell, D. J. & Siller, W. G.) 27P
Muscle, skeletal, ribonucleoprotein of, and its relation to the myofibril (Perry, S. V. & Zydowo, M.) 682
Mycobacterium butyricum, metabolism of glycerol in (Edson, N. L., Hunter, G. J. E., Kulka, R. G. & Wright, D. E.) 249
Myleran (1:4-dimethanesulphonyloxybutane), studies on the metabolism of (Roberts, J. J. & Warwick, G. P.) 3P
Myofibril, ribonucleoprotein of skeletal muscle and its relation to (Perry, S. V. & Zydowo, M.) 682
L-Myosin, effects of adenosine triphosphate on mechanical properties of surface films of (Cheesman, D. F., Keeler, M. M. & Sten-Knudsen, O.) 357
Myrica, observations on composition and metabolism of nitrogen-fixing root nodules of (Leaf, G., Gardner, I. C. & Bond, G.) 662

Nicotinic acid hydroxylase system of *Pseudomonas fluorescens* KB 1, purification of (Hunt, A. L.) 1
Ninhydrin-reacting substances, two-way separation of amino acids and, by high-voltage electrophoresis followed by paper chromatography (Efron, M. L.) 691
Ninhydrin reaction, low-temperature, estimation of anserinase activity by (Jones, N. R.) 407
Nitrogen-fixing root nodules of *Myrica*, observations on composition and metabolism of (Leaf, G., Gardner, I. C. & Bond, G.) 662
Nitro-reductase enzyme, purification of, of a *Nocardia* sp. (Villanueva, J. R.) 36P
Nocardia sp., purification of nitro-reductase enzyme of (Villanueva, J. R.) 36P
Nuclei, effect of ionizing radiation on phosphorylation by, of radio-sensitive tissues of rat (Creasey, W. A. & Stocken, L. A.) 519
Nucleic acids, turnover of, in rabbit macrophages (Watts, J. W. & Harris, H.) 147
Nucleolus, function of, and initiation of deoxyribonucleic acid synthesis in the connective-tissue cell (Harris, H.) 54
Nucleoside diphosphokinase of pea seeds (Kirkland, R. J. A. & Turner, J. F.) 716
§Nucleotide metabolism, stereochemical specificities of enzymes of (Barker, G. R.) 42P
Nucleotides in banana (Henderson, R. W., Morton, R. K. & Rawlinson, W. A.) 340

Oligosaccharide synthesis in the banana and its relationship to the transferase activity of invertase (Henderson, R. W., Morton, R. K. & Rawlinson, W. A.) 340
Ornithuric acid formation in hens (Baldwin, B. C., Robinson, D. & Williams, R. T.) 35P
Oxaloacetate plus glyoxylate as inhibitor of aconitase (Ruffo, A., Romano, M. & Adinolfi, A.) 613

Oxaloacetic acid, excretion of, by *Mycobacterium butyricum* (Edson, N. L., Hunter, G. J. E., Kulka, R. G. & Wright, D. E.) 249
Oxaloacetic acid, production of, from glucose by tissue in culture (Abdel-Tawab, G. A., Broda, E. & Kellner, G.) 619
§Oxidation–reduction enzymes, steric factors in action of (Slater, E. C.) 41P
Oxidation–reduction potential of cytochrome *b* in heart-muscle preparation (Colpa-Boonstra, J. & Holton, F. A.) 4P
Oximes, reactivation of phosphorylated chymotrypsin by (Green, A. L. & Nicholls, J. D.) 70
α-Oxoglutaric acid, production of, from glucose by tissue in culture (Abdel-Tawab, G. A., Broda, E. & Kellner, G.) 619

Pancreas, study of 'unsaponifiable' extracts obtained from hydrolysates of (Morton, R. A. & Fahmy, N. I.) 99
Pasteur effect, aerobic inhibition of glycolysis in pea-seed extracts and its relationship to (Hatch, M. D. & Turner, J. F.) 524
Pea seeds, nucleoside diphosphokinase of (Kirkland, R. J. A. & Turner, J. F.) 716
Pea-seed extracts, aerobic inhibition of glycolysis in, and its relationship to the Pasteur effect (Hatch, M. D. & Turner, J. F.) 524
Penicillium spinulosum, component fatty acids of fat from (Shimi, I. R., Singh, J. & Walker, T. K.) 184
Pentamidine, effect of, on growth and transaminases of *Escherichia coli* (Hicks, R. M.) 22P
pH optima for alkaline phosphatases, factors influencing (Motzok, I. & Branion, H. D.) 177
Phosphatase activity, acid, liver, stimulation of, after the parenteral injection of excessive doses of iron (Golberg, L., Martin, L. E., Bates, C. M. & Batchelor, A.) 20P
Phosphatase, plasma, kinetics of, of normal and rachitic chicks (Motzok, I.) 169
Phosphatases, alkaline, factors influencing pH optima and Michaelis constant for (Motzok, I. & Branion, H. D.) 177
Phosphatidic acid, isolation of, from ox liver (Hübscher, G. & Clark, B.) 7P
6-Phosphogluconate dehydrogenase in *Escherichia coli* (Scott, D. B. McNair & Chu, E.) 426
Phospholipid, complex, from sheep brain (Collins, F. D.) 532
Phospholipid fractions from butter (Billimoria, J. D. & Curtis, R. G.) 29P
Phospholipids, dinitrophenylated and methylated, separation of, by countercurrent distribution (Collins, F. D.) 281
Pituitary gland, pig, purification of growth hormone from (Ottaway, J. H.) 22P
Plasma, hen, lipophosphoprotein complex in, associated with yolk production (McIndoe, W. M.) 153
Plum, incorporation of ^{14}C into the sorbitol of leaves of (Anderson, J. D., Andrews, P. & Hough, L.) 9P
Polyacetylenes, biosynthesis of, by a basidiomycete (Bu'Lock, J. D. & Gregory, H.) 322
Porphobilinogen, biosynthesis of porphyrins from, by *Rhodopseudomonas spheroides* (Heath, H. & Hoare, D. S.) 14
Porphyrins, biosynthesis of, from porphobilinogen by *Rhodopseudomonas spheroides* (Heath, H. & Hoare, D. S.) 14
Potassium, distribution of, within cattle lens (Amoore, J. E., Bartley, W. & van Heyningen, R.) 126
Propamidine, effect of, on growth and transaminases of *Escherichia coli* (Hicks, R. M.) 22P
Protein antigens, intravenously injected, recovery of, from rat spleen (Hawkins, J. D. & Haurowitz, F.) 5P
Protein, location of ^{14}C in, from isolated rat diaphragm incubated with [^{14}C]amino acids and with $^{14}CO_2$ (Manchester, K. L. & Young, F. G.) 136
Proteinase content of thymus histones (Phillips, D. M. P. & Johns, E. W.) 538
Proteinase, purification and properties of, from *Bacillus cereus* (Salter, D. N.) 23P
Protein-binding, study of, in metabolism of vitamin B_{12} (Gregory, M. E. & Holdsworth, E. S.) 549
Proteins, incorporation of amino acids into, of isolated microsome fraction from duck liver (Campbell, P. N. & Kernot, B. A.) 6P
Proteins, interaction between thyroxine and (Tata, J. R.) 222
Proteins, microsomal, role of cytoplasmic ribonucleic acid in incorporation of amino acids into (Rendi, R. & Campbell, P. N.) 435
Proteins of isolated rat-liver mitochondria, incorporation of amino acid into (Reis, P. J., Coote, J. L. & Work, T. S.) 24P
Proteins, polarization of ultraviolet fluorescence and electronic energy transfer in (Weber, G. & Teale, F. W. J.) 15P
Proteins, ultraviolet fluorescence of (Teale, F. W. J. & Weber, G.) 15P
Proteolysis, gastric, in diseases affecting the stomach (Taylor, W. H.) 1P
Pseudomonas fluorescens, purification of the nicotonic acid hydroxylase system of (Hunt, A. L.) 1
Pseudomonas ovalis, influence of growth substrates on levels of glyoxylate cycle enzymes in (Kornberg, H. L. & Lund, P.) 33P
Pseudomonas oxalaticus (OX 1), formate and carbon dioxide utilization by cell-free extracts of, grown on formate (Quayle, J. R. & Keech, D. B.) 631
Pseudomonas oxalaticus (OX 1), formate and carbon dioxide utilization by, during growth on formate (Quayle, J. R. & Keech, D. B.) 623
Purine and its derivatives, actions of some enzymes on (Barker, G. R., Lloyd, J. B., Montague, M. D. & Wood, N. F.) 9P
Purines, role of, in flavinogenesis in *Candida flareri* (Audley, B. G., Goodwin, T. W. & McEvoy, D.) 8P
Pyridoxal phosphate, interaction between amino acids and (King, H. K. & Lucas, N.) 18P
Pyruvate metabolism in *Lactobacillus brevis* (Walker, J. R. L.) 188
Pyruvic acid, production of, from glucose by tissue in culture (Abdel-Tawab, G. A., Broda, E. & Kellner, G.) 619

Rachitis, kinetics of plasma phosphatase of normal chicks and chicks with (Motzok, I.) 169
Radiation, ionizing, effect of, on nuclear phosphorylation in radio-sensitive tissues of rat (Creasey, W. A. & Stocken, L. A.) 519
Retina, ox, effect of monoiodoacetate on aerobic metabolism of, *in vitro* (Hopkinson, L. & Kerly, M.) 22
Retina, rat, effect of an inherited retinal degeneration on development of glycolysis in (Graymore, C. N., Tansley, K. & Kerly, M.) 459
§Retinene in visual processes, *cis–trans* isomers of (Pitt, G. A. J. & Morton, R. A.) 40P
Rhodopseudomonas spheroides, adaptation to form bacteriochlorophyll in (Lascelles, J.) 508
Rhodopseudomonas spheroides, biosynthesis of porphyrins from porphobilinogen by (Heath, H. & Hoare, D. S.) 14
Ribonuclease, effect of, on incorporation of amino acid into mitochondrial protein (Greengard, O. & Campbell, P. N.) 305

Ribonucleic acid, cytoplasmic, role of, in incorporation of amino acids into microsomal proteins (Rendi, R. & Campbell, P. N.) 435
Ribonucleic acid, soluble, from guinea-pig mammary cells, reactions of amino acids with (Fraser, M. J., Shimizu, H. & Gutfreund, H.) 141
Ribonucleic acids from several sources, occurrence of methylated guanines in (Smith, J. D. & Dunn, D. B.) 294
Ribonucleoprotein component of *Escherichia coli* (Bowen, T. J., Dagley, S. & Sykes, J.) 419
Ribonucleoprotein component of *Hevea brasiliensis* latex (McMullen, A. I.) 545
Ribonucleoprotein of skeletal muscle and its relation to the myofibril (Perry, S. V. & Zydowo, M.) 682
Ribonucleoprotein, rat-liver, exposed to cold trichloroacetic acid, effect of ethanol on (Venkataraman, P. R. & Lowe, C. U.) 430
Rumen cellulolytic enzymes, substrate specificity of (Festenstein, G. N.) 75

Salicylate, effects of, on mitochondria from rat liver (Jeffrey, S. W. & Smith, M. J. H.) 462
Sarcina lutea, patterns of oxidative assimilation in (Binnie, B., Holms, W. H. & Dawes, E. A.) 17P
Seminal-vesicle mucosa, guinea-pig, ion transport and metabolism in slices of (Whittam, R. & Breuer, H. J.) 638
L-Serine, metabolism of, in liver (Dickens, F. & Williamson, D. H.) 496
Serine transhydroxymethylase, preparation of (Blakley, R. L.) 707
Serum albumin, human, intermolecular and intramolecular reactions of, after X-irradiation in aqueous solution (Rosen, D.) 597
Sheep, irreversible hypoglycaemic coma in (Setchell, B. P.) 275
Sheep, normal, cerebral metabolism in (Setchell, B. P.) 265
Sheep tissues, biochemistry of (Gallagher, C. H. & Buttery, S. H.) 575
Sodium, distribution of, within cattle lens (Amoore, J. E., Bartley, W. & van Heyningen, R.) 126
Sorbitol of plum leaves, incorporation of ^{14}C into (Anderson, J. D., Andrews, P. & Hough, L.) 9P
Spinach leaves, photosynthetic uptake of [^{14}C]carbon dioxide by subcellular components of (Moses, V., Holm-Hansen, O., Pon, N. G., Nishida, K. & Calvin, M.) 19P
Spleen, rat, recovery of intravenously injected protein antigens from (Hawkins, J. D. & Haurowitz, F.) 5P
Spleen, study of 'unsaponifiable' extracts obtained from hydrolysates of (Morton, R. A. & Fahmy, N. I.) 99
Staphylococcus aureus, incorporation of amino acids into cell-wall mucopeptide of, and effect of antibiotics on the process (Mandelstam, J. & Rogers, H. J.) 654
§Stereochemical correlations (Klyne, W.) 39P
§Stereochemical specificities of enzymes of nucleotide metabolism (Barker, G. R.) 42P
§Steroids, steric aspects of biosynthesis of terpenes and (Arigoni, D.) 39P
Sterol biosynthesis, formation of 'terpenoid' acids from mevalonic acid in liver-enzyme preparations and their relation to (Popják, G., Horning, M., Bucher, N. L. R. & Cornforth, R. H.) 34P
Sterols, site of esterification of, during intestinal absorption (Glover, J., Green, C. & Stainer, D. W.) 82
Stomach, gastric proteolysis in diseases affecting (Taylor, W. H.) 1P
Streptococcus bovis, transglucosidase activity of rumen strains of (Bailey, R. W.) 42
Substance SC, presence of, in liver of various species (Cunningham, N. F. & Morton, R. A.) 92
Succinyl group, translocation of, through the plasma membrane of *Micrococcus lysodeikticus* (Mitchell, P. & Moyle, J.) 21P
Sugars, micro-tests for (Clarke, E. G. C.) 13P
Sulphate, enzymically liberated, use of barium chloranilate in the determination of (Lloyd, A. G.) 133
Swayback, copper content and cytochrome oxidase activity of tissues from lambs with (Howell, J. McC. & Davison, A. N.) 365
Synovial fluid, degradation of the hyaluronic acid complex of, by proteolytic enzymes and by ethylenediaminetetraacetic acid (Ogston, A. G. & Sherman, T. F.) 301

Tenuazonic acid, structure of (Stickings, C. E.) 332
§Terpenes, steric aspects of biosynthesis of steroids and (Arigoni, D.) 39P
'Terpenoid' acids, formation of, from mevalonic acid in liver enzyme preparations and their relation to sterol biosynthesis (Popják, G., Horning, M., Bucher, N. L. R. & Cornforth, R. H.) 34P
Tetrahydropteroylglutamic acid and related hydropteridines, reaction of, with formaldehyde (Blakley, R. L.) 707
Tetraiodothyroacetic acid, identification of, as a metabolite in mouse kidney (Galton, V. A. & Pitt-Rivers, R.) 319
Thetin–homocysteine transmethylase, distribution of, studied with the aid of trimethylsulphonium chloride as substrate (Maw, G. A.) 602
Thiols, blood, chromatographic analysis of (Smith, M. J. & Rodnight, R.) 1P
Thymus, chromatography of histones from (Phillips, D. M. P. & Johns, E. W.) 538
Thyroid-gland hormone, metabolism of, in kidney (Galton, V. A. & Pitt-Rivers, R.) 314
Thyroid-gland hormones, separation of, from serum and tissues on column of Dowex-1 resin (Galton, V. A. & Pitt-Rivers, R.) 310
Thyrotoxicosis, experimental, rat, vitamin B_{12} protection in (Kasbekar, D. K., Lavate, W. V., Rege, D. V. & Sreenivasan, A.) 374
Thyroxine, binding of, by human- and chicken-serum proteins (Tata, J. R. & Shellabarger, C. J.) 608
Thyroxine, biological half-life of, in chickens (Tata, J. R. & Shellabarger, C. J.) 608
Thyroxine, identification of acetic acid analogues of, in mammalian tissues (Galton, V. A. & Pitt-Rivers, R.) 319
Thyroxine, interaction between proteins and (Tata, J. R.) 222
Thyroxine, reversible photosensitive changes on alkalinification of solutions of, in aqueous organic solvents (Tata, J. R.) 214
Thyroxine, ultraviolet-absorption spectrum of (Tata, J. R.) 214
Tissue, apparatus for incubating slices of, *in vitro* (Ottaway, J. H., Huggins, A. K. & Martin, J.) 25P
Transaminases of *Escherichia coli*, effect of isoniazid, propamidine, pentamidine and carbutamide on (Hicks, R. M.) 22P
Transferase activity of invertase, oligosaccharide synthesis in the banana and its relationship to (Henderson, R. W., Morton, R. K. & Rawlinson, W. A.) 340
Transferrins, genetic control of, in humans (Smithies, O. & Hiller, O. 121
Transglucosidase activity of rumen strains of *Streptococcus bovis* (Bailey, R. W.) 42
1:1:1-Trichloro-2:2-di-(*p*-chlorophenyl)ethane, effect of, on adenosine triphosphate–phosphate exchange (Avi-Dor, Y. & Gonda, O.) 8
2:4:5-Trihydroxybutyrophenone, metabolism of, in rat and dog (Astill, B. D., Fassett, D. W. & Roudabush, R. L.) 451
3:5:4′-Trihydroxystilbene in heartwood of *Eucalyptus wandoo* (Hathway, D. E. & Seakins, J. W. T.) 369
Tri-iodothyroacetic acid, identification of, as a metabolite in mouse liver (Galton, V. A. & Pitt-Rivers, R.) 319

Tri-iodothyronine, biological half-life of, in chickens (Tata, J. R. & Shellabarger, C. J.) 608
3:5:3′-Tri-iodothyronine, reversible photosensitive changes on alkalinification of solutions of, in aqueous organic solvents (Tata, J. R.) 214
3:5:3′-Tri-iodothyronine, ultraviolet-absorption spectrum of (Tata, J. R.) 214
Trimethylsulphonium chloride as substrate for thetin–homocysteine transmethylase (Maw, G. A.) 602
Tryptophan, 1-(*o*-carboxyphenylamino)-1-deoxyribulose as intermediate in biosynthesis of, by mutant strains of *Aerobacter aerogenes* and *Escherichia coli* (Doy, C. H. & Gibson, F.) 586
Tumour, Ehrlich ascites, studies on conversion of glucose into lactic acid in (Dewey, D. L. & Green, F. O.) 160
Tumour, liver, incorporation of amino acid into protein of microsome and mitochondria preparations of (Greengard, O. & Campbell, P. N.) 305

Ubiquinone, endogenous, rate of reduction of, in heart-muscle preparation (Pumphrey, A. M. & Redfearn, E. R.) 2P
Ubiquinone, presence of, in liver of various species (Cunningham, N. F. & Morton, R. A.) 92
Urea, role of, in flavinogenesis in *Candida flareri* (Audley, B. G., Goodwin, T. W. & McEvoy, D.) 8P

Vicia faba see Bean
Vitamin A, intestinal absorption of, in the guinea pig (Glover, J., Green, C. & Stainer, D. W.) 82
Vitamin B_{12}, effect of, on reduction of glutathione disulphide in human erythrocytes (Jocelyn, P. C.) 11P
Vitamin B_{12} protection in experimental liver injury to the rat by carbon tetrachloride (Kasbekar, D. K., Lavate, W. V., Rege, D. V. & Sreenivasan, A.) 384
Vitamin B_{12} protection in experimental thyrotoxicosis in the rat (Kasbekar, D. K., Lavate, W. V., Rege, D. V. & Sreenivasan, A.) 374
Vitamin B_{12}, study of protein-binding in metabolism of (Gregory, M. E. & Holdsworth, E. S.) 549
Vitamin D, kinetics of plasma phosphatase of normal chicks and chicks deficient in (Motzok, I.) 169

Yolk, lipophosphoprotein complex in hen plasma associated with production of (McIndoe, W. M.) 153
